PERFORMANCE REGULATIONS

1) Performance Time. Each competing band shall occupy the football field for not less than five nor more than eight minutes. Any band that leaves the field in less than five minutes or fails to complete its performance in eight minutes shall be penalized one rating.

(2) Movement to Field Position. The contest chair has determined the ready position for each band will be the goal line. This position shall provide efficient and prompt access to the football field without interfering with other bands as they perform. The front ensemble will advance to the 20-yard line during the 2 min exit of the previous band's performance.

(3) Official Time. The official time for each band will be kept according to the following:

(A) The contest chair will designate an official timekeeper.

(B) To allow ample time for the judges to complete their critiques, bands will be scheduled with five minutes between performances and a maximum of fifteen minutes per band.

(C) Warm-up or pre-show is permitted during the 5-minute setup period, however, judges will be instructed that activity on the field will not be judged until they see 7:59 on the clock. If you do not wish to utilize the entire 5 minutes of setup time, you may hold your band at the field entrance to coordinate your ready time with the beginning of the announcement.

(D) Each band will be announced with 45 seconds remaining on the 5-minute clock. The beginning of their announcement will indicate that the performance time will begin in 45 seconds.

(E) The actual timing and adjudication for the show will begin at the end of the five minutes.

(F) At the conclusion of each band's performance the post script will be read while the band will have two minutes to exit the field and clear the marching surface of all equipment, instruments and props. The use of either instrumental or verbal cadence is optional. A band that fails to be clear of the field (outside the sidelines or endlines) or continues to use instrumental or verbal cadence at the end of the two minutes will be disqualified.

(G) A band leaving equipment or instruments on the sideline in such a manner that these items impede the movement of the next band into its starting

| STADIUM WIRELESS FREQUENCIES | <p>Stadiums typically provide the use of a wireless microphone system for officials at football games or for on-field presentations. Most often, these systems are powered on even when not in use, creating the potential for interference in the form of unwanted audio. Being aware of these frequencies may help you avoid interference with your band's wireless system.</p> <p>A good practice is to perform a sound check of your wireless equipment during your 5-minute setup. The 5-minute clock will not be stopped if you experience electronic issues of any kind.</p> <p>D. W. Rutledge Stadium's wireless frequencies are below:</p>  |
